NURSERYMEN**

**Siebenthaler Avenue and Catalpa Drive
DAYTON, OHIO**

Established 1870

LOCATION

The CATALPA DIVISION of our nurseries is located at the corner of Siebenthaler Avenue and Catalpa Drive, which is three and one-half miles northwest of the center of the City of Dayton.

May be reached by going out Salem Avenue to Catalpa Drive and then north one mile; or out North Main Street to Siebenthaler Avenue and then west one-third mile.

Our MORaine DIVISION is located six miles south of Dayton at Moraine City.

May be reached by going down South Broadway and Springboro Pike, continuing across Route No. 25 to corner of Alexandersville Road and Springboro Pike; or down Lamme Road to Polo Field which lies opposite the east entrance to the nurseries.

Our MAIN OFFICE is on Catalpa Drive at Siebenthaler Avenue, and may be reached at all times by local or long distance telephone.

Please Read Carefully

DIRECTIONS FOR ORDERING:- Write name and address plainly and advise time and method of shipment, otherwise we will use our best judgment and ship by the shortest and safest route.

PRICES:- Prices in this list cancel all previous lists and quotations. They are subject to change without notice and to stock being unsold upon receipt of order. They include packing costs, except on excessively bulky material and are f.o.b. our freight or express station. For local orders they include delivery to customer if within 10 miles of our Nursery. Cost of delivery by truck to more distant points will be quoted upon request.

SUMMER PLANTING:- An extra charge is made for balling deciduous plants not marked B&B either in dormant season or in full leaf for summer planting.

TERMS:- Cash with order, except to persons who satisfy us as to their financial responsibility, when accounts will be due in 30 days from date of invoice.

QUANTITIES:- Five plants will be furnished at the 10 rate; six at the 12 rate; and twenty-five at the 100 rate.

INSPECTION:- A certificate of inspection by the Ohio Department of Agriculture will be attached to each shipment.

LANDSCAPE SERVICE:- We maintain a thoroughly trained landscape organization fully equipped to handle any landscape project including designing, construction, and planting. Ask for special quotations on such work.

GUARANTEE:- All plant materials are warranted to be true to name, up to size specified and in good healthy condition when delivered, otherwise replacement will be made or original amount paid will be refunded. We cannot, however, guarantee the growth of plants not planted by us. This is due to the perishability of such material and the fact that their care and up-keep is beyond our control. Any plants planted by our Landscape Department and given proper care by the owner are guaranteed to grow and thrive satisfactorily for one year from date of planting. Those failing to do so will be replaced without charge the following planting season.

EVERGREEN TREES

Our Evergreens have been transplanted frequently and many have been sheared, insuring a mass of fibrous roots and well shaped tops.

Prices include balling and burlapping.

LARGE SPECIMEN TREES

We are prepared to furnish and move trees of extra large size. The caliper measurement is taken at a point twelve inches above the ground surface. These trees are all grown far apart in nursery rows, having been frequently transplanted to insure a good root system and render them especially suited for future moving.

The prices quoted below include moving and planting with a large ball of earth, but are subject to deviation, dependent upon conditions at point of planting, distance, etcetera.

PAPAVER orientale - Oriental Poppy

Space does not permit listing here all the varieties of Oriental Poppies that we grow (over a hundred named sorts) which is probably the largest collection in America at this time. Here are fifteen varieties, however, that may be depended upon and that cover the range of color very well.

Our special poppy circular containing all the newer varieties will be sent on request to anyone interested.

	Each	Per 3
APRICOT QUEEN. 32 in. The only true apricot poppy. Large silky petals .35		1.00
CERISE BEAUTY. 32 in. An old favorite bearing many medium sized flowers of Rose Doree*, or light cerise color.50		1.25
HELEN ELIZABETH. 24 in. (Siebenthaler 1935) This is a real acquisition of light La France Pink*. The petals are deeply crinkled and show no evidence of spots or blotches. Just the right shade to plant with light blue delphiniums.5.00		12.50
HENRI CAYEUX. 30 in. Veronia Purple* might be called old rose shading into Burgundy. An early bloomer and good grower with distinctive gray green foliage. Flowers most attractive where protected from midday sun.75		2.00
HERCULE. 42 in. Immense flower, often nine inches across, of true Scarlet*, borne on extra tall and sturdy stems. A leader in its color class75		2.00

	Each	Per 3
PAPAVER orientale		
JOYCE. 48 in. Spectrum Red*, or may be described as cherry red in color. Flowers are of medium size borne on tall, perfectly straight stems. We consider it one of the very best garden varieties35	1.00

FRUIT TREES AND SMALL FRUIT PLANTS

All of our fruit trees are carefully grown, true to name, healthy and well formed. They are graded according to the Horticultural Standards of the American Association of Nurserymen. The caliper is taken two inches above the bud. Unless specially mentioned, the apple, cherry, plum, pear and quince trees are two years old and the peach trees are one year old.

Summer Fruiting Varieties

MELBA. Solid red. Same quality and appearance as McIntosh. A good variety for family and roadside market use.

YELLOW TRANSPARENT. (Miller) The outstanding yellow summer apple. This type is tall growing and habitually bears good crops of large, golden, juicy fruit.

Autumn Fruiting Varieties

DUCHESS. Dull red, profitable commercial and home use variety. October and November

MAIDEN BLUSH. Pale lemon yellow with crimson cheek.

Comes into bearing young and is a reliable cropper.

WEALTHY. Handsome appearance and good flavor. One of the finest varieties of its season and especially good for commercial purposes.

Winter Fruiting Varieties

CORTLAND. An improved McIntosh with brighter red fruit. Very juicy and a good keeper.

GALLIA BEAUTY. A superior variation of Rome Beauty. Solid red, large, smooth skinned fruit. November to February.

GRIMES GOLDEN. One of the best pure yellow winter apples for home and commercial use.

JONATHON. An early bearing variety, red, medium size, and very good quality. Tree never large but productive.

NORTHERN SPY. A large striped red apple, crisp, juicy and aromatic.

SOLID RED DELICIOUS. Large, dark red fruit with fine flesh, crisp and juicy, with a delightful aroma. Annual bearer.

WINESAP - Turley variety. Dark, rich red, larger and bears younger than the old Winesap.

Early Ripening Varieties

CHAMPION. A large, handsome, early variety, creamy white, with red cheek, sweet, rich and juicy.

GOLDEN JUBILEE. A new variety that is highly recommended. Mid-season and of unexcelled quality. Yellow flesh with distinct blush.

HALEHAVEN. Large, beautifully colored, yellow fleshed, freestone peach, two weeks earlier than Elberta. Thrifty grower and very hardy tree.

ROCHESTER. The fruit is large, yellow, sweet, juicy and of delicious flavor; keeping and shipping well.

SOUTH HAVEN. It is better than average size, globular, prolific. Its meat is yellow, juicy and delicious; cheek yellow with one red blotch.

Mid-Season Varieties

EARLY ELBERTA. Ripens about a week earlier than Elberta; otherwise the same, or a trifle better quality.

ELBERTA. Large, yellow, with red cheek; flesh yellow, firm, juicy, of high quality. Exceedingly prolific, sure bearer and hardy. The leading market variety.

J. H. HALE. Golden yellow with deep carmine blush. Larger, five days earlier, and superior quality to Elberta.

Late Ripening Varieties

WILMA. The fruit is large as Elberta, its parent, but not quite so elongated; ripens about ten days later.

PEARS
